2-year-old Son of Mr. and Mrs. John Baird Barred to Death.

(Clara L. Dwinell, Correspondent.)

The two-year-old son of Mr. and Mrs. John Baird, living about three miles from this village, was so severely burned recently as to cause his death. Mrs. Baird had placed a pail of boiling water in a chair, and left the room to get some cold water. On hearing the cries of the child she hastened into the room to find that the little boy had pulled the pail over, spilling the contents over its body. The skin and flesh were so badly burned that large portions of it adhered to the clothing when the latter was removed. A physician was at once summoned and everything possible done for the relief of the little sufferer. In spite of all efforts the child lived only about 24 hours. The funeral was held at the house on Saturday. Much sympathy is felt for the family.

CONGRESSMAN DALE ABROAD.

With Party of Colleagues Has Sailed for France to Study War Conditions.

Editor of The Caledonian:

As the special session of Congress has approached adjournment, I have been impressed by the importance of the legislation enacted, but more than that by the thought of the most vital questions that will call for decision during the coming session. I feel that the first thought of one entrusted with responsibility at the time should be the war conditions, on the conduct of which depends the future of the nation and the welfare of the soldiers; that my sole duty is in that course, and that I should do what I believe would best fit me to meet it. It seems perfectly clear to me that I should go where we voted to send our boys and, as far as possible, study the necessities and obtain information as to the requirements. If I measure correctly the character of my constituents, that is what they would want me to do. Therefore, I am leaving with a party of ten members of the House for this purpose. While it is not an official commission, it is certified by the secretary of state and the speaker of the House as one that goes in the interest of our country and the relations between its government and the governments of the allied nations. If our plans are not interrupted, I think my observations and conclusions will be of interest to the people at large. The loyal spirit of whom I know is centered so devotedly in the great struggle over seas.

Cheered by the belief that the approval of the home people goes with me, and in anticipation of meeting the boys under the flag they are following on the highest mission ever undertaken by our country, I feel that my course is clear.

My office in Washington will be open and the interests of my constituents will receive the careful consideration of Charles S. Greenwood, for many years secretary of the late Representative Hill.

Very truly yours,

PORTER H. DALE.

Sluggish bowels indirectly cause much sickness. A constipated condition not only poisons the blood stream, but quickly affects the liver and other organs, causing biliousness, sick head, sour stomach, bloating, etc. Foley Cathartic Tablets are mild in action, yet cleanse thoroughly, with no nausea, and no active after effects. They keep the bowels regular, stomach sweet and liver active. Stout persons welcome the comfortable, light, free feeling they bring.
